**20a. How does the Committee accomplish its purpose?**

The Veterinary Medicine Advisory Committee advises the Commissioner in discharging their responsibilities as they relate to assuring safe and effective drugs, feeds and feed additives, and devices for animal use, and, as required, any other product for which the Food and Drug Administration has regulatory responsibility.

**20b. How does the Committee balance its membership?**

The Committee consists of a core of 13 voting members including the Chair, who are knowledgeable of the issues related to the Committee's function. Members and the Chair are selected by the Commissioner, or designee, from among authorities knowledgeable in the fields of companion animal medicine, food animal medicine, avian medicine, microbiology, biometrics, toxicology, pathology, pharmacology, animal science, chemistry, public health/epidemiology and minor species/minor use veterinary medicine. One member is technically qualified and identified with consumer interests. The committee may also include one non-voting member who is identified with industry interests.

**20c. How frequent and relevant are the Committee Meetings?**

The VMAC did not meet during FY2013. The VMAC was terminated September 24, 2013.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

Members of the committee are drawn from academia, research, and/or clinical practice. Their advice and input lends credibility to regulatory decisions and helps those decisions stand up to intense public scrutiny. The alternate means of obtaining this advice would involve the recruitment of large numbers of scientists on a full-time basis at maximum rates of compensation.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

There were no closed meetings to report in FY-13. The committee was terminated September 24, 2013.

**21. Remarks**

No reports required for FY-13. Although this committee did not meet in FY-13, considerable time was devoted to finding out whether or not the committee should be terminated. It was found on September 24, 2013 that the agency no longer needed the committee so it was terminated.

## Narrative Description

FDA's strategic priorities in responding to the public health challenges of the 21st century are to advance regulatory science and innovation; strengthen the safety and integrity of the global supply chain; strengthen compliance and enforcement activities to support public health; expand efforts to meet the needs of special populations; advance medical countermeasures and emergency preparedness; advance food safety and nutrition; promote public health by advancing the safety and effectiveness of medical products; establish an effective tobacco regulation, prevention, and control program; and manage for organizational excellence and accountability. The Veterinary Medicine Advisory Committee supports FDA's strategic priorities by advising the Commissioner or designee in discharging responsibilities as they relate to helping to ensure public and animal health by approving safe and effective animal drugs and, as required, any other product for which the Food and Drug Administration has regulatory responsibility.

**Cost Savings Comments**

The utilization of the Veterinary Medicine Advisory Committee enables the Agency to obtain required and frequently scarce professional services from medical and scientific experts not otherwise available to the Agency; and to obtain the services of these experts only on an as needed basis rather than on a full time basis. The service of the committee resulted in advice for the improvement of the public health, for which it is difficult to assign a financial value.

**What is the approximate Number of recommendations produced by this committee for the life of the committee?**

6

**Number of Recommendations Comments**

The committee met six times since FY2003 to discuss and make a collective recommendation on six separate issues. Each meeting transcript can be found at <http://www.fda.gov/AdvisoryCommittees/CommitteesMeetingMaterials/VeterinaryMedicineAdvisoryCommittees/VeterinaryMedicineAdvisoryCommitteeMaterials/default.htm>

**What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?**

67%

**% of Recommendations Fully Implemented Comments**

The function of an advisory committee is purely advisory in nature. Although the FDA most often accepts the recommendations from its committees, the advice is purely

advisory in nature, and therefore, the Agency has the option of not implementing the advice.

**What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?**

0%

**% of Recommendations Partially Implemented Comments**

The function of an advisory committee is purely advisory in nature. Although the FDA most often accepts the recommendations from its committees, the advice is purely advisory in nature, and therefore, the Agency has the option of not implementing the advice.

**Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?**

Yes ☒ No ☐ Not Applicable ☐

**Agency Feedback Comments**

It usually does. Product approval issues are first released to the sponsor. When appropriate, information is made available to the public. Actions related to guidance documents or other general matters issues are available publicly when implemented.
